Township Electors OK Budget Of \$291,875

Mrs. Marion Pechousek, chairman, left, and Mrs. Joan Larson, committee member, show off some of the items to be sold at the Spring Antique Show and Sale sponsored by the Antioch Woman's Club at the Antioch High School on Saturday and Sunday, April 25 and 26. Glass, as well as a showing of a private collection of Pickard China. The members of the club plan a luncheon and snack bar with a variety of delicious specialties. Tickets are now being sold by members and at the Mental Health Resale Shop in Antioch and the State Bank of Antioch.

Training Site Sought

The Lake County Enforcement Assistance Planning Commission met April 8, and heard from Jake Novak, former chief of police in North Chicago and currently secretary-treasurer of the Illinois Association of Chief of Police, and Zion Mayor W. Bruce Dunbar, a member of the Illinois Law Enforcement Commission.

Both men spoke on their activities in relation to locating a permanent resident police training facility at the site of Camp Logan, on the shore of Lake Michigan adjacent to Illinois Beach State Park.

Novak told the commission the association of chiefs is in attempting to get a police training school in northeastern Illinois and believes Camp Logan the ideal spot. There are some usable buildings on the property, as well as a rifle range currently being used by the F.B.I., which Novak says could be utilized in training officers from local police departments. The only other training school in the state at present is in Urbana.

Commission Chairman Judge Harry D. Strouse, Jr. said a formal resolution will be prepared for the next meeting in support of the training school proposal at Camp Logan.

Mayor Dunbar, in a letter to the director of the Police Training Institute, said the 240-acre complex comprising Camp Logan is not being used to its fullest and could ideally be the site for an academy of police training. He pointed out that a substantial part of Illinois' population is within a 50-mile radius.

In other business the commission learned from State's Attorney Jack Hoogasian that he is planning to submit an application for funds through the Omnibus Crime Control and Safe Streets Act "Action Now" program to conduct an informal project on the dangers of narcotics.

Commissioners approved an application for \$10,000 to be submitted through the Illinois Crime Control Commission for a criminal justice training program for volunteers working at the Half Way House in Waukegan, known as the Young Men's Fellowship of Lake County.

Errors Delay Refund

So far this year 29,650 income tax refunds of Northern Illinois taxpayers have been delayed because of mathematical errors, District Director E. P. Trainor announced.

Under the IRS Automatic Data Processing system, computers verify mathematical computations. When an error is detected, IRS must determine the correct tax before a refund can be issued.

As a result of these mathematical errors, Mr. Trainor said, some taxpayers will receive a smaller refund than they anticipated, while others will receive a larger one. In some cases, taxpayers who made mathematical errors will be billed for additional taxes.

Of the 200,000 returns processed last week at the IRS Service Center in Kansas City, Missouri, many types of errors other than mathematical were detected. In many cases, Mr. Trainor said, these have also led to refund delays.

A total of 4,153 failed to sign their return. Every tax return must be signed and two signatures are required.

Two From Area Will Attend State Meeting

Four Lake County residents will be among an estimated 150 medical assistants to attend the 14th annual meeting of the Illinois Medical Assistants Association, April 17-19, in East Peoria.

They are Mrs. Zelma Bechtol, 200 E. Witchwood Lane, Lake Villa, outgoing president of the 625-member organization; Mrs. Bernice Soladay, 1009 Victoria St., Antioch; Mrs. Jessie Ogle, 1303 N. Sheridan Rd., Waukegan; and Mrs. Hilda Otter, 320 Gillette Ave., Waukegan.

The meeting will be highlighted by professional education programs, workshops, a meeting of the IMAA's House of Delegates and installation of officers.

The Illinois Medical Assistants Association is an educational, non-profit organization designed to maintain high standards of professional self-improvement among medical secretaries, nurses and technicians.

Dedicate Court Complex

Ninety-two years ago, in November, 1878, Lake County marked the opening of their second court house. The first one, built in 1845, burned to the ground three years before.

This past weekend officials dedicated our third court house. Not one structure, but a complex comprised of three separate but connecting buildings. Those who viewed the recently completed courts section used such descriptive words as magnificent, fantastic, beautiful, etc. Undoubtedly there are those who feel the accommodations are a bit too plush, too modern, too nice for local government.

These feelings are not unlike

Two Plays Will Be Presented

On April 24 at 7 p.m. the seventh and eighth grades of Emerson Grade School, located at Route 59 and Beach Grove Road, will present two plays in the school gym. Tickets are available at the school or may be bought from the upper grade students.

The seventh grade play is a mystery entitled "The Swiss Chalet Mystery." It concerns two college students who stumble into international intrigue in a European ski lodge. Although the whole class is working on the show, the cast includes Gayle Bolton, Bobby Dodd, Mike Lasco, Lorie Marotta, Billy Petty, Jeff Schmidt, Ron Sheedoo, Dennis Thain and Carolyn Winkler.

The eighth grade is presenting a gay 90's melodrama, "Saving the Old Homestead." The plot retells the classic tale of a sweet heroine and her old parents who are tricked by a sneaky villain. Even the students who don't appear on stage are busy with the very funny play.

Included in the cast are Diana Bowers, Travis Braden, Debbie Brueggemann, Barb Dodd, Sharlene Hall, Kim Netreba, John Rocker, Chris St. Pierre, Chuck Thibeau, and John Karczewski. The musical renditions will be handled by Pam Edwards, Kit Kackeck, Sherry Robbins, Doris Meuter, and Mary Ellen Sullivan.

Joan Toft, VanderMeer Win Seats

Mrs. Joan Toft and Gerald VanderMeer were the successful vote getters Saturday in the Antioch Grade School Board election.

VanderMeer led the ticket with 220 votes and Mrs. Toft, an incumbent, tallied 205 votes.

Ousted in his bid to remain on the board was R. Wayne Polsgrove with 179 votes. Running fourth was John Heick with 174.

Milo Bailey, unopposed for a one-year term, received 328 votes.

Seven candidates were successful in bids for seats on the Emmons School District Board.

The winners were Dr. Alan L. Thain, incumbent, 121; Ruth A. Duha, 106; Harold P. Wilson, 99; Richard C. Ruck, Jr., incumbent, 98; Dolores Bowers, 94; Dan Maras, 88; and Richard Dubek, 86.

The two unsuccessful candidates were Jack E. Bodin with 74 votes and James R. Hazelton, 67.

Lake County School Supt. W. C. Petty will chair the organizational meeting when winners will draw lots for 1 year, 2 year and 3 year terms.

Two new faces will be on the Lake Villa board. The winners are John LaPaglia, Jr., with 142 and Gerald M. Nordness with 157. Losing out was incumbent Clark R. Wetterberg with 109 and Robert W. Holiday with 69.

High School Board Dinner Set April 22

The annual Board of Education dinner meeting of Antioch Community High School with the Grade school boards in the high school district, Antioch, Lake Villa, and Newport Township, will be held in the high school cafeteria on Wednesday, April 22, at 7 p.m.

The program will consist of an invocation by Robert Lindblad and an introduction of guests by Robert Denman, with the introduction of the main speaker by William Brook, the presiding officer.

The speaker will be Frank M. Whittaker, Director of Law and Order Programs for the Illinois State Chamber of Commerce. A question period will follow the speaker's presentation.

'Jail' Circuit Judge

There was no room at the inn. So Lake County Circuit Judge Harry D. Strouse, Jr. went to jail. And, there, he got a close shave.

What he also got was an education in what the Illinois State Penitentiary system is all about.

In fact, he was told by the warden that he was only the second judge from all of Illinois to visit the Pontiac State Penitentiary in the last nine years.

It all began when Judge Strouse, who lives in Barrington, went to Springfield to attend a special seminar sponsored by the Illinois Law Enforcement Commission for the Chairmen and Directors of such regional planning commissions throughout the state.

Judge Strouse, Chairman of the Lake County Law Enforcement Planning Commission, said the idea was to bring such officers up-to-date on the present program; to outline prospective programs and to discuss mutual problems.

He left Springfield to head home, accompanied by Nick J. Dragash, Staff Director of the "Action Now" program of the State Commission; Don G. Verbeck, member of the State Staff for Corrections, and Frank A. Koller, former Berwyn Police Chief and member of the State Commission Liaison Staff for Northern Illinois. They got as far north as Pontiac. There, they were snowed in.

Finding no room in any area hotel or motel, they called Joseph C. Vitek, Warden of the Pontiac State Prison. Vitek arranged for Judge Strouse and his party to stay in the new officers' quarters which were not yet officially opened.

There were no salary increases requested at the meeting.

The resolution passed by the electors asked that Con-Con delegates write into the constitution a measure that would preserve the township form of government and petitioned the State Legislature to delay implementation of a bill already passed in the last General Assembly which would force supervisors from the County Board.

Strouse told the electors that "we are fighting for our lives as far as township government goes."

The measure passed by the legislature, he said, would require redistricting of the county and create a board of commissioners of between 5 and 29 members. "If we had only nine," Murrie said, "the shore line would control the entire county and we in the western district would not have a voice."

Murrie said the statewide township organization had requested every town meeting to pass such a resolution so that a united front could be shown to the legislature.

"We are on our way out in case you don't know it," he said.

Murrie said the move would increase the property taxes because it would be a duplication of government.

"Unless we act now," he said, "it will be too late. There is a bill that will be submitted again this session that would call for weighted voting but I don't give it much chance of success."

"The last bill on the same subject was vetoed by Gov. Ogilvie."

"The township form of government has helped provide protection of taxes on property for the past 350 years. We cannot afford to give up any protection of this kind."

Elaine Wells Wins Science Honor Award

Elaine Wells, daughter of Mr. and Mrs. Richard Wells of Route 2, Antioch, has been chosen by the Antioch Community High School Science department to receive the Highest Honor Award from the Chicago Section of the Society of Women Engineers.

This award is given to the girl student with the highest achievement in Science and Mathematics in the high school. The award itself is a certificate of achievement suitable for framing.

Award recipients must have completed three years of Science and three years of Mathematics with distinction, and must be students who have been active citizens of the school and/or community.

The Society of Women Engineers is a non-profit, educational organization dedicated to making known the need for women engineers and encouraging young women to consider an engineering career.

State Bank of Antioch President William Brook is featured today in a series on personalities in Antioch written and photographed by Joe Rush. See page 9.

Buffet Honors 'Jeed'

Wildwood Girl Is Runnerup

There is going to be a deluxe dessert buffet this Friday in the Antioch High School cafeteria at 7:30 p.m., compliments of the Antioch Chapter of the American Field Service.

The guest of honor will be A.F.S. foreign exchange student from Thailand, Pratchaya Rokcharachareon, popularly known as Jeed.

The public is invited to enjoy a variety of delicious desserts while they view Jeed's beautiful slides of Thailand and listen to songs by Antioch High's swinging vocal group, The Madrigals, and folk singing by Wendy Jensen and Cheri Dalgaard.

Jeed has also promised to sing a song in that.

There will be a display of interesting moments from Thailand and its facilities. There are 1,169 inmates he found out, and among

Lakeland Girl Scouts Delivering Cookies

Girl Scouts of the Lakeview Girl Scout Council area, will be delivering their cookies from recent orders starting April 10 and will be busy making deliveries through April 24.

Some Girl Scout troops, anticipating requests for more cookies are planning to hold booth sales at various businesses on the weekends of the 11th and the 18th.

Having only approximate figures at this time, including the enthusiastic anticipation of the girls who intend to hold booth sales, the Lakeview Council is pleased that it looks like they may top their 1969 record of over 110,000 boxes and their 1970 goal of 120,000 boxes.

It looks as if they may reach a sales level of 120,000 boxes. If delivery and booth sales successfully support these figures, camp development of the Council's new Wisconsin property may be soon underway.

For people who were missed by door to door contact, here is a description of the cookies that may be still purchased at a cookie booth:

The five types of cookies include three all time favorites: sandwich cookies, thin mints and a kosher sugared shortbread. The two new cookies include the Peanut Butter Pattice, a vanilla cookie topped with a dab of peanut butter and completely iced with chocolate;

cookies also. Some good general recipes include: The Shortbread and the chocolate and vanilla creams can be crushed and mixed with shortening to make wholesome and delicious pastry for pies and custard, lemon, butterscotch, chocolate creme, etc.

Also these cookies may be used to line a mold for gelatin desserts.

Try top-topping the cookies with marshmallow, dotting with butter and browning quickly under a broiler.

These girls from Junior Troop 144 of Antioch, passing out the cookies from the Lakeland Girl Scout Cookie Sale are, from left, Colleen DeVries, Chris-Ann Bailey, Kim Korando and Diane Walsh.

Auction Time

The wildest week in Chicago television is just around the corner.

It's the Channel 11 auction, when our educational TV station lets down its hair for six hectic days of pure, unabashed commercialism.

From 3 p.m. Sunday, April 26 until the wee hours of the following Sunday, celebrity auctioneers will sell thousands of donated items to at-home telephone bidders. All proceeds go toward Channel 11's operating expenses.

In order to top last year's world record of \$400,161, the auction needs donated merchandise and services—and plenty of them. A sizeable army of volunteers are asking local businesses, but they can't reach everybody. That's too bad, because the auction provides excellent exposure and publicity for firms who donate items to be sold.

The name and address of every donor whose donation is worth at least \$50 will be mentioned on the air once or more when his donation is sold. The product will be shown and described by a celebrity auctioneer to an estimated audience of 2.5 million viewers. And, of course, the donation is tax deductible.

The Channel 11 auction office is looking for new merchandise of all kinds, antiques and services. Donations can be dropped off at the auction warehouse in the rear of the Channel 11 studios at 5400 N. St. Louis weekdays from 9 a.m. to 5 p.m. and Saturdays and Sundays from 10 a.m. to 3 p.m.

Or call the station at 583-5000. To keep Channel 11 sending those excellent programs our way and to give local businesses a publicity boost, we urge our readers to call Channel 11 soon.

Duty Is First

Citizenship, according to the dictionary, means the "duties, rights, and privileges of being a citizen." I think it is significant to note that in the definition duties come first. Unfortunately, in practice many of our citizens not only place duties last, but some ignore them altogether.

Theodore Roosevelt once stated, "The first requisite of a good citizen in this republic of ours is that he shall be able and willing to pull his weight." A noted author once wrote, "Neither democracy nor effective representation is possible until each participant in the group—and this is true equally of a household or nation—devotes a measurable part of his life to furthering its existence."

Much of the crime and violence in our society today occurs, I am sure, because not enough Americans pull their weight and not enough Americans devote measurable parts of their lives to further the existence of their homes and their Nation. They need to break away from the "what's in it for me" syndrome and help protect and preserve the freedoms which they take for granted. The full duty of a man as a free citizen extends beyond his own self-interests. Where selfishness prevails, benevolence and good will die.

Good citizenship is much more than a classroom subject; it is a vital daily chore for all free people if they hope to remain free. It is a debt to the past and an obligation to the future. Good citizenship, like other worthy goals, is the fruit of personal commitment and involvement. It is a solemn contract between the individual and

his government.

In the United States, a citizen is a part of his government, a system founded on the rule of law, not men. Its powers are derived from the consent of the governed. It is established on the principles of freedom, equality, justice, and humanity. These represent the rights and privileges of citizenship. But rights and privileges are inseparable from duties. Some basic duties of a citizen are to love his country, respect and obey its laws, participate in its affairs and operations, and defend it against all enemies.

In America, the rewards of citizenship are priceless, but the demands are high. If we do not meet the demands, there will be no rewards. To my mind, a real need in our country is for all people to do their duty as citizens.

Letters to the Editor

April 2, 1970

Dear Governor Ogilvie:

On the basis of the following reasons, I request that you delete from your budget your proposed \$29,000,000 for private and parochial schools:

1. The assumption that all parochial schools will close if unaided is inaccurate. The Church, worth probably around \$80 billion, is able without tax money to maintain the schools. It feels essential; it will close the others.

2. The figure \$400 million, as an estimate of cost to tax-payers if all church schools close (which they won't), is misleading. The logic in arriving at this figure goes like this: a family of five has an income of \$10,000-\$2,000 per year per capita. Therefore an additional child will cost \$2,000.

3. Inner-city public school children, for whom a better education is imperative, should rightfully have any \$29 million "bonus". Why not use it to hire more teachers, pay them a decent salary so they'll stay on the job, give them each very small classes, and allow them to give individual attention to those children in Illinois who need it most? Why subsidize the rich church's private schools, when so many public school children are desperately poor, and their public schools inadequate?

4. With all our other troubles, can't we be wise enough to resist adding to our shoulders this divisive burden of government-sponsored religious segregation of the young people? It will divide us further, not unite us, as it has divided Canada, Quebec, Ireland, Holland, Germany.

5. Aid to the church schools is

It doesn't work like this. Most public schools could absorb a small increase in attendance. Senate Bill 631 provides emergency funds for those that can't. Property owners would not have to pay any new per-pupil tax; there are many other sources, industrial and otherwise. How about taxing the Church on part of its billions?

open-ended. When they threaten next year to close their schools, what will the public have to pay them? In Pennsylvania some are now demanding total public support. Is this fair, since 90 percent of our taxes to "non-public" schools would go to one church? The public will be wise to support one school system—the public's.

Lake Villa PTA Explores New Methods

The Lake Villa PTA will devote its April meeting to exploring and determining new methods by which the PTA can better serve the children, the school and the community. Robert Vaughan, PTA president, announced that the meeting will consider changing the present approach of monthly informative meetings to a concept of fewer general meetings and increased special activities.

In a survey being conducted this week, all parents and teachers are being asked to indicate their preferences regarding the future course of their PTA. Choices include a variety of activities to be sponsored for both children and parents such as night classes, recreational programs and discussion groups.

In addition, the PTA will consider sponsoring the use of the various school buildings as community centers to be available for senior citizen activities, fine arts programs and other activities not restricted to students or their parents. The agenda will also cover various fund raising efforts which could be undertaken to support the programs under consideration.

Vaughan stated that the Executive Council of the Lake Villa PTA feels there is not only a need for the activities mentioned but that there are also ample interested people to organize and run such programs.

The meeting will be held in the new Intermediate School on Monday, April 20. Refreshments will be served.

Social Notes

By Del Jahnke

Mrs. Walter Miller and her mother, Mrs. Anne Tryon, Channel Lake, have just returned from a sunny stay in Arizona. With their headquarters base in Phoenix, they then traveled the Apache Trail to the Tonto Cliff Dwellings. These cliff dwellings were built by the Salado Indians some 600 years ago. Several Indian homes had to be closed to recent visitors in order to preserve their fragile structures. However, there were still many of these unique limestone and clay homes to explore and envision the lives led by these Indians so long ago.

While in Tucson, they visited the historic and beautiful old Mission San Xavier Del Bac. Although nearly 200 years old, this mission is in an excellent state of preservation and is richly ornamented. They were deeply impressed with the beauty and serenity of this old church.

Next on their agenda was a trip to Tombstone, that "wild west" town of Marshall Wyatt Earp fame. They saw Boothill graveyard, the world famous Crystal Palace, the world's largest rose tree (it covers some sixty feet of surface), the Tombstone general store and other reminders of by-gone years.

On to Nogales, Arizona, and then across the border for a brief glimpse of Nogales, Mexico. They marveled at the natives' quaint little homes set picturesquely right in the mountains.

Both women made a tour of retirement homes in Sun City and in Scottsdale.

While viewing the Grand Canyon, they met with a blizzard and a 14 inch snowfall. However, nothing could dampen the majestic magnificence of the Grand Canyon in all its grandeur and glory.

In returning home, the control sickness almost kept them in Arizona. But after several endeavors, they succeeded in arriving at their destination. They had a "wonderful time," but there's "no place like home!"

The Ben Stadicks of Chenoa, parents of Bernie Stadick, were weekend guests at the Anti-Och Stadicks' home.

Unexpected company at the Ray Rathmann home last Sunday were the Herbert McCaskeys of Palatine. Both families dined at Phil's Restaurant, following an afternoon's visit. Mrs. McCaskey is Mrs. Rathmann's cousin.

Learn the secret of TV's little will-power, no pill, no exercise-reducing formula. This marvelous diet is literally taking the country by storm as the pounds simply slip off while you eat your fill of the delicious foods on the list. It is the one diet that really works for most overweight people.

A well known TV personality, who appears weekly, had tried numerous diets with no success. He lost 60 pounds in a little over 60 days on this diet. A noted novelist lost 9 pounds in 5 days. She says, "I don't have the time to go to health farms and relax that way to take off weight. That's why this particular fast-acting diet is the right one for me."

If you are one of the normal 95%, the diet will definitely take off that excess poundage in a hurry no matter how many times you might have failed in the past. It can work wonders for you for the rest of your healthier and more beautiful life.

CHRISTIAN SCIENCE**CHURCHES**

The "oneness" of mankind that insures peace can be found in man's at-one-ment" with God. This spiritual relationship is explained in the Lesson-Sermon on "Doctrine of Atonement" to be read in all Christian Science churches on Sunday, April 19.

The Lesson-Sermon begins with a Golden Text from John: God sent not his Son into the world to condemn the world; but that the world through him might be saved."

One of the readings from Science and Health with Key to the Scriptures by Mary Baker Eddy, states: "It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established."

All are welcome to attend services starting at 11 a.m. at First Church of Christ, Scientist, Beacon Hill, Rte. 173 and Harden, Antioch, Ill.

On the following Saturday, the Gazette being a weekly newspaper, the editor reported on the first session in the new building. "Judge Upton took occasion to congratulate the Grand Jury as representatives of the people on the circumstances attending the first meeting in the Court House. He referred to the building in the most complimentary terms, and ventured the opinion that as an auditorium the Court room was perhaps not excelled in the State."

And so it is that like comments have already been made by visiting lawyers touring the county's latest courthouse. "Probably not equalled in the State," they say.

They play the kind of music that teenagers want at a dance. Informal dress will be allowable; however, boys are asked not to wear cleats on their shoes. The dance is open to anyone in this area, and KYI members will be admitted at a reduced price if they display their membership cards at the door. Tickets will be sold at the door.

The dance will be held in the Salem Central High School gymnasium on Highway 50 in Podunk Lake.

those expressed by the editor of the old Waukegan Gazette on the occasion of the opening of the new courthouse in 1878, though in a language more formal. The Saturday edition of November 16, 1878 reads in part, "The Circuit Court will convene in the new Temple of Justice on Monday next. The new courtroom and the fact Judge Clerk W. Upton is to preside at this, the dedicatory session, will be sufficient to attract a considerable crowd, especially during the opening days of the session."

In a separate article he went on to describe the new County Building. "The rooms are all of them comfortable, pleasantly lighted, fitted with gas and water pipes, and will make commodious apartments for the officials. The contractors... have done their work well and the committee have looked carefully after the interests of the taxpayers. As a result, we have a most excellent building, without even the suspicion of a steal in it."

Sequoits Continue Barrage

Antioch continued its winning ways with two impressive wins over Dundee Saturday. The Sequoits won the first game 6-2 and took the second 4-3.

The cold, damp air didn't stop Mike Stickler in the first two innings as he struck out five batters, four in one inning as a result from a passed ball. Bruce Rush took over in the third and pitched to twelve batters, striking out five and walking ten. Bill Albano came in to relieve Rush in the seventh, facing two men and striking out one. Rush picked up the win.

Antioch scored first in the fourth inning on an infield hit by Gross. An error by the third baseman, a wild pitch and a stolen base scored the first run.

Dundee scored a run in the fifth on two walks and a double.

Antioch came up with five hits and five runs in the sixth inning. Key hits were by Kevin O'Neill a double, and Mark Taylor and Bill Albano's singles.

Dundee had a serious threat going in the seventh as a result of four walks by Rush. Bill Albano came in to close the door, however, as he struck out one man and the last out came on an interference play on a pop up at the plate.

Rush took the win and Gatenby was the loser. Antioch out-hit Dundee seven to one. The difference however was in control as Rush issued ten walks with Dundee only giving up two.

Line score, first game:
Antioch 0 0 0 1 0 5 0-6
Dundee 0 0 0 1 0 1-2

Sequoits In Good Start

By Nell McKenzie

The Antioch baseball team is off and running with a fine 4-0 record. Despite the elements the team rolled up 7-2, 6-2, and 4-3 victories over the weekend.

The Round Lake Panthers were the Sequoits' first victims Friday, April 10 at Round Lake. Tom Martin hurled a three-hitter, giving up six walks and two runs, one of them earned.

Chip Gross paced the team with three hits in as many at bats. Mark Taylor, Bob Jarvis, and Mike Geiger also contributed to the cause with one hit each.

Antioch scored a run in the first on a single by Gross, an error by the pitcher moved the runner up. Mark Taylor then singled, driving the first run in. O'Neill added and Bob Jarvis hit into a double play. Bill Albano then grounded to third for the third out.

The sides were put down without any runs until the top of the fourth. Jarvis opened the inning with a single, moved to second on a bunt. Albano and Steve Bentel followed with walks, and Jarvis scored on a passed ball. Gross singled home the other two runs.

The fifth inning added two insurance runs to the Antioch score. Outfielder Jarvis walked and stole second. Bill Albano scored the runner on a long fly ball to left center, ruled as an error when the left fielder couldn't hang on to it. Bentel then grounded out, scoring Albano from third.

One run was scored in the sixth adding icing to the cake. Pitcher "Martin" walked and a double by Gross scored the last run.

Round Lake came up with two runs in the seventh to evade the shut-out. A walk and a double by pitcher Cliff Wallin provided one run. An error and a ground ball sacrifice to the shortstop scored the second Panther run.

Tom Martin went the distance to chalk up his first win of the year. Round Lake's starter John Mehner pitched four innings, struck out four and walked three. Cliff Wallin came in relief of Mehner in the fifth inning. Wallin struck out five and walked three. The pitcher of record was Mehner now 0-1.

Falcon Cagers Record

This year's Falcon team won the second consecutive Westosha County Basketball Crown which is the first in the history of the conference. The Falcons have also extended the conference consecutive winning streak to 20 games which dates back to the 1967-68 season.

and is the longest in the history of the league.

The Falcons initiated the 1969-70 season with an intrasquad game before more than 250 loyal fans. The Blue's edged the Red's by 18 to 15 count, pacing the winners were Plants and LaMeer, while Jacobsen and Koenecke shined for the Red's.

In the last game of the season, the Salem Falcons met Brookwood for the conference championship before a capacity crowd.

Both teams entered the contest supporting a perfect 8-0 conference record. Brookwood, slight favorites, were led by Trimble and VanEvery who averaged fifty points plus between them, while Salem was led by balanced scoring, pattern type basketball and a tough defense.

In two years of basketball this Salem Falcon team has combined a 27-3 record and had never lost a Westosha County League Basketball game which is an all-time school and league record. The Falcons were only able to accomplish this by hard work and desire and a complete team effort.

As a team, the Falcons averaged 37.6 points per contest while limiting their opponents to 26.8 points. From the field the Falcons shot .396 per cent, a school record. Their weakness was free

District II is comprised of the following twelve YMCA's: Aurora, Belvidere, Glen Ellyn, Evanston, Joliet, Kankakee, Naperville, North Suburban, Oak Park, Ottawa, Streator and Waukegan. Approximately 500 swimmers were competing in the meet in the following age groups: 8 and under, 9-10, 11-12, 13-14 and 15-17. Team points

are awarded for the first twelve places in each event.

Here is the Brook family. Daughter Ainsley, from left, Bill and his wife, Janet.

Meet Banker William Brook

If one was asked to find a word picture of Bill Brook the President of the State Bank, in as few words as possible, it would have to be said that he shows a deep and personal interest in people and a sincere desire to build a better tomorrow.

Bill has lived in Antioch his entire life. He graduated both from grade and high school in Antioch and then went on to college at Beloit for his degree.

It is interesting to note that he was in the last 8th grade class that Dr. W. C. Petty taught before becoming County Superintendent.

Bill's wife, Janet, is from the Oak Park-River Forest area and the two of them met while he was in college. Bill, his wife and their daughter Ainsley, now live in a beautiful home overlooking Antioch Lake. Their daughter, Ainsley, plans to attend college next year after she graduates from Antioch High School.

Bill's banking interest comes from a long line of family banking. His grandfather was interested in banking in the Burlington, Wis. area in that he was connected with the Minchard Bank at that time and in about 1892 or 93, started the bank here in Antioch with the help of Bill's father and the Minchard family, which gave them a short course in the banking business.

Bill himself began working in the bank about 1937 to help his father. Banking was not his first love, but due to the circumstances following the great depression, he felt that he should stay to help in the bank.

As the years passed he stayed and well for Antioch that he did. Through the efforts of his father and himself they developed one of the outstanding banks in Lake County.

Not only has the State Bank under Bill's direction grown into an outstanding banking business, but also because of his deep interest in people and the community, this bank has been a great help in making the town grow.

It is a basic philosophy of Bill's and that of the bank's that a bank is in part a public business and they owe the community a certain duty to help it grow. He feels,

not only should the bank, but also its employees participate.

Bill has always felt that it is enjoyable to watch community grow and even more enjoyable to be a part of that growth. His interest in community affairs has been great over the years. He belongs to many of the local organizations such as the Lions' Club, and the Chamber of Commerce.

He has also been a member of the local high school Board of Education for a number of years and when asked just why he would spend so much time in doing such a difficult job, his answer fits very well our earlier picture of this man. He feels that basically this is a very important job and there is a need to help.

Since becoming a board member, and he is now President of the Board, this work has become a real challenge to him. The developing of a better educational system in Antioch, building better and certainly necessary new school buildings, and helping to develop a better overall program for the young people has become very important to him.

As Bill says, "Antioch is going to grow and most likely will feel a major growth in the next few years and everyone in the community should do their part to help see to it this growth will be good".

Bill's major interest outside of banking and education has always been in hunting and fishing and the basic conservation of these sports. He has been active in the field of conservation through the local Conservation Club and other personal activities such as the Deer Lake area that he and a group of men have developed for fishing and hunting.

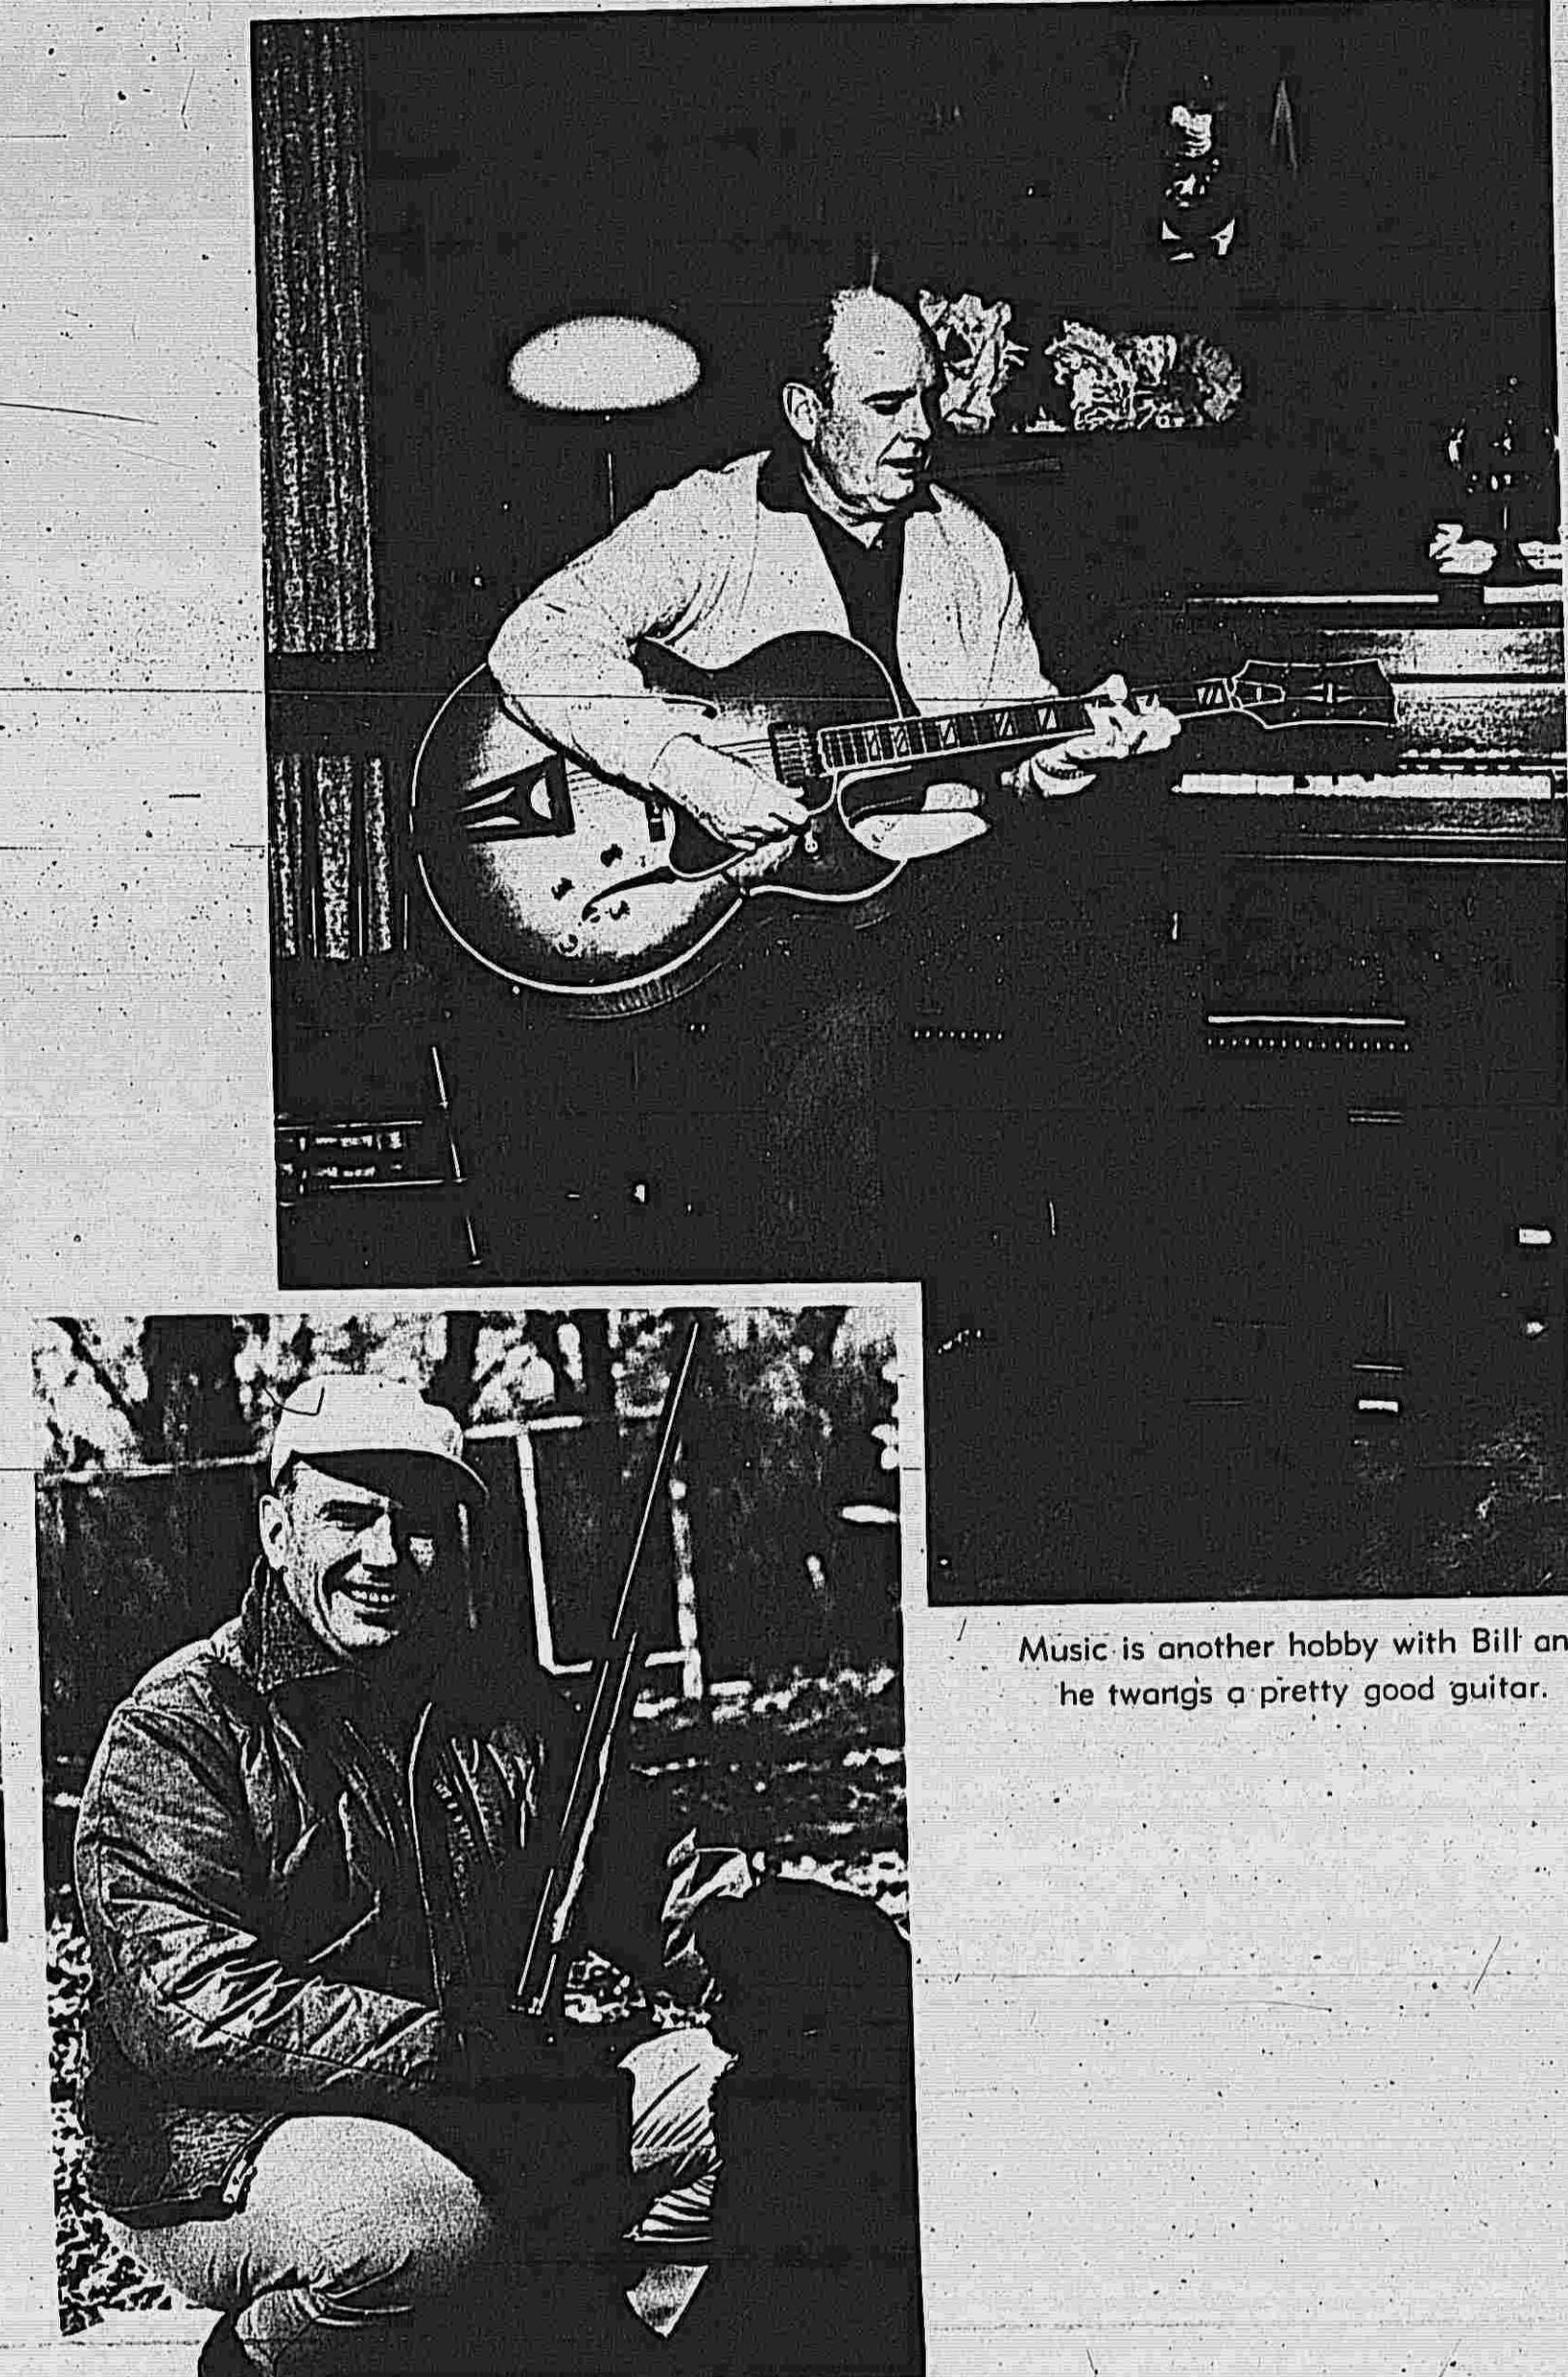

Most men, when they reach the point in life that they are successful, they sit back and take life a little easy.

Not so with this man.

He feels that he is not old fashioned in his way of thinking nor does he want to get that way, but rather he wants to grow right along with the community that has become a major part of his life.

Bill is also a member of the Conservation Club and here he is shown working at the ice-fishing-derby.

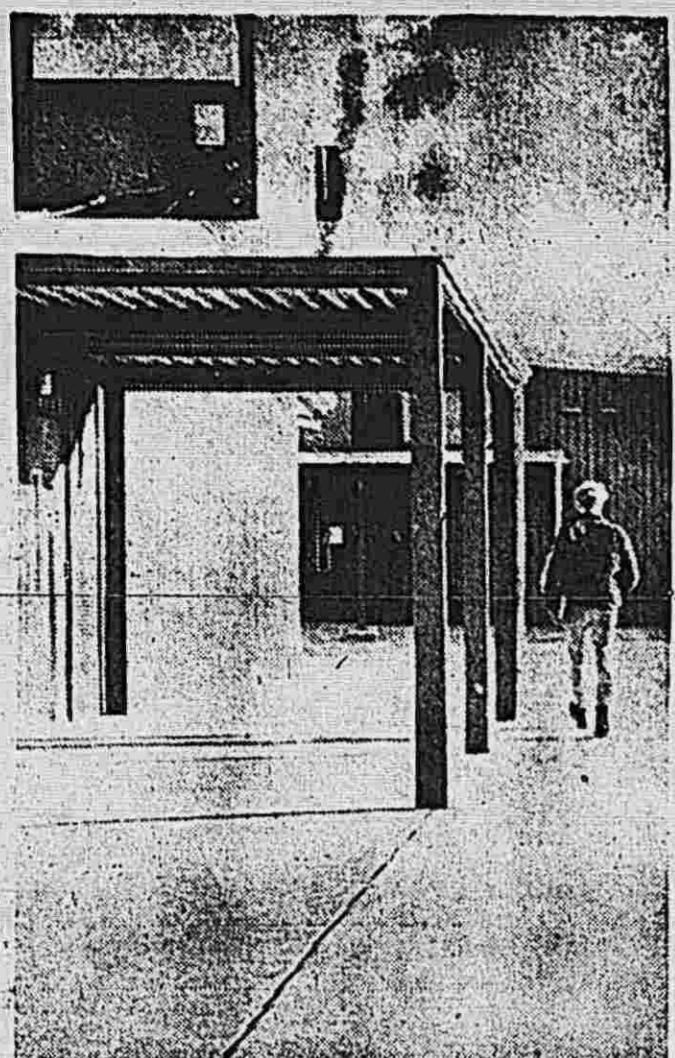

One of Bill's hobbies is hunting. Here he is at the Red Wing Club with his dog.
